Claims 1, 4, 6, and new claims 7-19 are pending in this application which claims benefit of US Provisional Application SN 60/390,289, filed June 21, 2002.

Applicant's claims are drawn to a nematocide composition consisting essentially of an aqueous medium containing 0.5 – 15% v/v or a composition consisting essentially of molasses and/or cheese, in combination with a nematocidally effective amount of one or more oils (e.g., vegetable oils, claim 4).

The rejection under 35 U.S.C. 102 is withdrawn in response to applicant's amendment.

Newly submitted claims 14-16 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: claims drawn to plants or plant parts are a different statutory class of invention. Further, it is noted that the claims as drafted are drawn to a mixture of statutory classes (composition + plant), and that applicant has not actually invented a plant, nor modified the genome of any plant.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 14-16 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claims 1, 4, 6-13, and 17-19, are allowed.

This application is in condition for allowance except for the presence of claims 14-16 drawn to an invention non-elected with traverse as noted above. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass

the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.
